Dawson and Secon construction crews are assisting in removal of downed trees and rock debris in the area surrounding the slide. The situation is precarious and changing. Residents in the area of Second Avenue from Austin Street to Whitecliff Ave have been asked to not attempt to access the area during this time since the removal of downed trees is dangerous.

Residents are asked to respect Road Closure signs. Those signs are not only for vehicles but are also for the safety of pedestrians. Please honor these signs and do not venture past them by foot.
